The relation between ME/CFS disease burden and research funding in the USA

Figure 1. The US disease burden of ME/CFS relative to that of well-known, impactful diseases.

Figure 2. NIH funding versus US burden of disease.

The relation between ME/CFS disease burden and research funding in the USA

Figure 3. ME/CFS funding versus that of similarly burdensome diseases.
Figure 4. Ratio of actual to burden-commensurate funding of underfunded diseases.

Figure 5. Ratio of actual to burden-commensurate funding of all diseases for which data is provided.
