

## **RECRUITING NOW: CHRONIC FATIGUE TREATMENT STUDY**

Are you impacted by ME/CFS and interested in participating in research?

Solve Together is supporting the recruitment for a new study of an over-the-counter supplement (Hydrogen Water) for the symptoms of chronic fatigue. The study will be led by Dr. Fred Friedberg, Stony Brook University School of Medicine.

Home-based; no travel. You can be based in any U.S. continental state, as well as Alaska and Hawaii.

If interested, please join Solve Together by February 29, 2024 (if you have not already), by visiting [SolveTogether.org](https://SolveTogether.org) or using this QR code:

The Solve Together team will compile a list of potentially eligible participants in March 2024 for Dr. Friedberg's team to conduct pre-screening.
